

KEMAS: Jurnal Kesehatan Masyarakat

KEMAS: Jurnal Kesehatan Masyarakat [P-ISSN 1858-1196 | E-ISSN 2355-3596 | DOI 10.15294/kemas] published by Universitas Negeri Semarang in collaboration with Ikatan Ahli Kesehatan Masyarakat Indonesia (IAKMI Tingkat Pusat) and Jejaring Nasional Pendidikan Kesehatan (JNPK). KEMAS publishes the article based on research or equivalent to research results in public health or other disciplines related to public health that has not been loaded/published by other media. The journal contains articles about epidemiology and biostatistics, health policy and administration, public health nutrition, environmental health, occupational health and safety, health promotion, reproductive health, maternal and child health, and other related articles in public health. The journal can be used by health practitioners, health caregivers, teachers, medical students, and people who are interested in public health issues. The journal was first published in July 2005 and subsequently published twice a year, in July and January. KEMAS has been accredited by DIKTI starting in 2014 with an [Accreditation Letter Number: 212/P/2014](#) and indexed by [Sinta 2nd](#). Since 2017, the journal were published 3 times a year in July, November and March.

Counseling Model Development Based on Analysis of Unwanted Pregnancy Case in Teenagers

*Efa Nugroho, Zahroh Shaluhayah, Cahya Tri Purnami,
Kristawansari Kristawansari*

Abstract

Teenegers who experience unwanted pregnancies are increasing. The number of client that access the Unwanted Pregnancy counseling services in IPPA Central Java in the year 2006 (94 clients), 2007 (91 clients), 2008 (95 clients), 2009 (68 clients), 2010 (157 clients), 2011 (98 clients), and 2012 (83 clients). Related to that data, 31% of clients were referred Haid Induction (HI), 3% refer shelter, and 66% continue the pregnancy and there were not identified. This research cunducted in 2014 used quantitative-qualitative approach which aimed to develop a model of counseling after mapping the case. Respondents were 5 Unwaned Prenancy counseling clients selected based on the final decision of counseling. From the research developed counseling model for teenage which should have an easy procedure, complete services, opening hours accordingly, no discrimination, respect privacy, provide pro choice, and low prices. Services consists of counseling, contraception, safe abortion, treatment of STIs, information center counseling and HIV testing, gynecological, prenatal and postnatal services, as well as the services of victims of gender based
