To: <trijokoundip@gmail.com>

Dear Dr. Joko,

This is regarding manuscript 5379619 titled "Pesticides Poisoning and the Use of Personal Protective Equipment (PPE) in Indonesian's Farmers" submitted to Journal of Environmental and Public Health. While checking the data of the authors for verification, we had the following comment(s):

We were unable to find any academic history for Hanan Lanang Dangiran.

In order to proceed with the review process of manuscript 5379619, please provide us with an institutional email address for Hanan Lanang Dangiran, along with his/her institutional web page, and a list of his/her previous publications.

We look forward to hearing from you.

Best regards,

To: Premi Keerthiga Rajasekaran <premikeerthiga.rajasekaran@hindawi.com>

Dear Premi Keerthiga Rajasekaran

I have submitted my revised manuscript titled Pesticides Poisoning and the Use of Personal Protective Equipment (PPE) in Indonesian's Farmers [manuscript id: 5379619] to your journal via the online submission system on 2019-09-30. However, the status has remained unchanged ever since.

I would be grateful if you could let me know whether there has been any further progress on my submission.

Sincerely,

Tri Joko

Department of Environmental Health

Faculty of Public Health

Dear Dr. Joko,

Thank you for your inquiry. The Editor who is overseeing the review process of your manuscript has assigned to external reviewers. Once the reviewers have submitted their reports, the Editor will be able to make a decision.

We will notify you when the decision is finalized.

Best regards,

Premi

Dear Dr. Joko,

Following the review of Research Article titled "Pesticides Poisoning and the Use of Personal Protective Equipment (PPE) in Indonesian's Farmers" by Tri Joko, Nikie Astorina Yunita Dewanti and Hanan Lanang Dangiran, I recommend that it should be revised taking into account the changes requested by the reviewer(s). Since the requested changes are major, the revised manuscript will undergo a second round of review by the same reviewer(s). Please login to the Manuscript Tracking System to read the submitted review report(s) and submit the revised version of your manuscript no later than Monday, January 06, 2020.

To submit the revised version of your manuscript, please access "Author Activities" in your account and upload the PDF file of your revised manuscript. Also, please submit your replies to the comments of the reviewer(s) as an additional PDF file.

Best regards,

Stefano Capolongo

Dear Dr. Joko,

The review process of Research Article 5379619 titled "Pesticides Poisoning and the Use of Personal Protective Equipment (PPE) in Indonesian's Farmers" by Tri Joko, Nikie Astorina Yunita Dewanti and Hanan Lanang Dangiran submitted to Journal of Environmental and Public Health has been completed. I am pleased to inform you that your manuscript has now been accepted for publication in the journal.

The publication process of your manuscript will be initiated upon the receipt of electronic files. Please log in to the Manuscript Tracking System at the link below using your username and password, and upload the electronic files of your final accepted version within the next 2-3 days.

<http://mts.hindawi.com/author/5379619/upload.files/>

The electronic files should include the following:

- 1- Source file of the final accepted manuscript (Word or TeX/LaTeX).
- 2- PDF file of the final accepted manuscript.
- 3- Editable figure files (each figure in a separate EPS/PostScript/Word file) if any, taking into consideration that TIFF, JPG, JPEG, BMP formats are not editable.

If you have deposited your manuscript on a preprint server (e.g. arXiv, bioRxiv, chemRxiv), now would be a good time to update it with the accepted version. If you have not deposited your manuscript on a preprint server, you are free to do so.

Thank you again for submitting your manuscript to Journal of Environmental and Public Health.

Best regards,

Stefano Capolongo

Dear Dr. Joko,

I am pleased to let you know that the first set of galley proofs of your Research Article 5379619 titled "Pesticides Poisoning and the Use of Personal Protective Equipment (PPE) in Indonesian's Farmers," is ready. You can apply your corrections directly to the manuscript with the Online Proofing System (OPS).

Using the OPS, you can quickly and easily make corrections directly to your galley proofs and submit these corrections with a single click.

<https://ops.hindawi.com/author/5379619/>

If a new corresponding author is added, they must log into their manuscript tracking system account and add their ORCID ID. Any additional ORCID IDs added on during proofing will also need to be updated on that author's account. Delays can occur if this isn't done.

To expedite the publication of your manuscript, please send us your corrected galley proofs within three days.

Best regards,

--

Hindawi Production Team

Pesticide Poisoning and the Use of Personal Protective Equipment (PPE) in Indonesian Farmers

Tri Joko  ¹, Nikie A. Y Dewanti,¹ and Hanan L. Dangiran¹[Show more](#)**Academic Editor:** Stefano Capolongo**Published:** 21 Jan 2020

Abstract

This study aimed to investigate the poisoning symptoms occurring in pesticide-exposed farmers. This study was conducted in a red onion farming center area in Wanasari Subdistrict, Brebes, Indonesia, from May to June 2018. This study was designed as the descriptive study. The significance value of $p < 0.005$ showed that the variable was correlated with the health problems, including excessive fatigue (p value = 0.041), excessive saliva (p value = 0.006), hard breathing (p value = 0.021), frequent urination (p value = 0.047), blurred vision (p value = 0.059), dizziness (p value = 0.032), and finger pain (p value = 0.007). The significance value ($p < 0.005$) of 0.000 showed that the use of personal protective equipment was correlated with the health problems. Based on the odds ratio value of 1.137, 95% confidence interval = 0.042–0.444 meant that the personal protective equipment was a risk factor of health problems. The results showed that 89.2% of the farmers who used the personal protective equipment were categorized in the healthy group.

1. Introduction

Pesticides remain an integral part of agricultural activities worldwide. Pesticides are often used to increase
