Dear Dr. Diana Nur Afifah,

This message is to acknowledge receipt of the above manuscript that you submitted via email to Food Research. Your manuscript has been successfully checked-in. Please refer to the assigned manuscript ID number in any correspondence with the Food Research Editorial Office or with the editor.

Your paper will be reviewed by three or more reviewers assigned by the Food Research editorial board and final decision made by the editor will be informed by email in due course. Reviewers' suggestions and editor's comments will be then made available via email attached file. You can monitor the review process for your paper by emailing us on the "Status of my manuscript".

If your manuscript is accepted for publication, Food Research editorial office will contact you for the production of your manuscript.

Thank you very much for submitting your manuscript to Food Research.

Sincerely,

Son Radu, Ph.D.
Chief Editor

Subject: MANUSCRIPT SUBMISSION

Dear Professor Son Radu
Editor in Chief of Food Research

We are pleased to submit an original research article entitled "Banana Resistant Starch inhibitory inflammation and Cyclooxygenase-2 in BALB/c Mice induced by Azoxymethane and Dextran Sodium Sulfate" by Syafira Noor Pratiwi, Diana Nur Afifah, Nyoman Suci Widyastiti, Vega Karlowee, Gemala Anjani, and Hermawan Istiadi.

In this manuscript, our research revealed that resistant starch from Indonesian local food, *batu* and *kepok* banana, can inhibit inflammation and suppressed expression of COX-2. The treatment groups with resistant starch of batu and kepok banana flour had a significantly lower level of inflammation when compared to the positive group. The COX-2 score in the treatment group resistant starch of batu and kepok banana was significantly lower than the positive control group. The COX-2 intensity in both groups was lower than the positive group but not significant. The combined score between the percentage and the intensity of COX-2 expression in the two treatment groups also had a lower than the positive control group.

We believe that this manuscript is appropriate for publication by the *Food Research* because it very related to aims and scope this journal. Our manuscript creates a paradigm for future studies of the evolution of functional food from Indonesian local food.

We confirm that this manuscript has not been published and is not under consideration for publication elsewhere. All authors have no conflict of interest that can affect the results of this study.

I will act as the author of the correspondence for this manuscript and I will be responsible for informing the progress or progress of the review of the manuscript, as well as revisions to all co-authors. For my correspondence, I can be contacted via email at d.nurafifah.dna@fk.undip.ac.id.

Thank you for your attention and consideration.

Best regards,
Dr. Diana Nur Afifah, M.Si

Dear Dr. Diana Nur Afifah,

Manuscript FR-2021-262 entitled "Banana Resistant Starch inhibitory inflammation and Cyclooxygenase-2 in BALB/c Mice induced by Azoxymethane and Dextran Sodium Sulfate" which you submitted to Food Research, has been reviewed. The comments of the reviewer(s) are included in the attached file.

The reviewer(s) have recommended publication, but also suggest some revisions to your manuscript. Therefore, I invite you to respond to the reviewer(s)' comments and revise your manuscript. Once the revised manuscript is prepared, please send it back to me for further processing.

Because we are trying to facilitate timely publication of manuscripts submitted to Food Research, your revised manuscript should be submitted before or by 25th May 2021. If it is not possible for you to submit your revision by this date, please let us know.

Once again, thank you for submitting your manuscript to Food Research and I look forward to

receiving your revised manuscript.

Sincerely,

Professor Dr. Son Radu
Chief Editor, Food Research

Dear Dr Diana,

Manuscript ID: FR-2021-262

Manuscript Title: Banana resistant starch inhibitory inflammation and cyclooxygenase-2 in BALB/c mice induced by azoxymethane and dextran sodium sulfate

Before we can proceed with the article production, I would like to clarify a few points that I have commented in the manuscript. Please refer to the attachment. Please address the issues raised in the comments.

Please use the attached copy to make your revisions as it has been corrected to the Journal's format. Once you have done, kindly revert the copy to me as soon as possible. Please note the faster you respond, the quicker we will process your manuscript.

Thanks & Regards,
Vivian New

Dear Dr Diana,

Please refer to the attachment for the galley proof of your manuscript FR-2021-262 entitled 'Banana resistant starch inhibitory inflammation and cyclooxygenase-2 in BALB/c mice induced by azoxymethane and dextran sodium sulfate'. Please check the content of the galley proof. If there are any mistakes, please comment and highlight in the PDF itself and revert to us within two (2) days of receipt. Once we have finalized the PDF version, your manuscript will be published online for early viewing.

Please see the attachment for the invoice INV22086. We hope that you can make the payment as soon as possible before 28 April 2022 for us to complete the publication of your manuscript. The manuscript information e.g. volume, issue, page numbers and DOI, will be provided once we have received the payment.
