### [PDF] Regional Expansion of Susukan Subdistrict, Semarang Regency in the Context of Improving Village Community Services

[I Indarja - 2021 - doc-pak.undip.ac.id](#)

Susukan village is the administrative center of Susukan District. The distance between Susukan Village and the district government center (Ungaran) is 55 km. To reach Susukan Village, you can pass through Sruwen (Tengaran), Klero (Tengaran), Tingkir (Salatiga) or Penggung (Boyolali). Susukan Village is an alternative route from Semarang to Sragen. Initially, Susukan District consisted of n24 villages, so it deserved to be expanded, due to the increasing population, volume of government and development activities to facilitate the ...

## IJPRONLINE

**International Journal of Pharmaceutical Research (IJPR)** an International Journal of Pharmaceutical Research (ISSN -0975-2366) (An official publication of Association of Indian pharmacist-AIP) is established in the year 2009. People from various avenues of pharmacy profession, who have come together in a single platform to redefine the structure of pharmacy profession in the country, where it is seen only as an industry oriented profession. IJPR is peer reviewed online journal which is also available in print version. The motto behind the journal is to help students, researchers and scientist worldwide to benefit from the high quality peer reviewed articles and to their high performing works in the entire arena of pharmaceutical science.

IJPR is dedicated to protect personal information and will make every reasonable effort to handle collected information appropriately. All information collected, as well as related requests, will be handled carefully and efficiently as possible in accordance with IJPR standards for integrity and objectivity.

# Regional Expansion of Susukan Subdistrict, Semarang Regency in the Context of Improving Village Community Services

**INDARJA**

Faculty of Law, Diponegoro University, Semarang 50275, Indonesia

Email: indarjahatn@yahoo.com

Received: 15.08.20, Revised: 06.09.20, Accepted: 02.10.20

**ABSTRACT**

Susukan village is the administrative center of Susukan District. The distance between Susukan Village and the district government center (Ungaran) is 55 km. To reach Susukan Village, you can pass through Sruwen (Tengaran), Klero (Tengaran), Tingkir (Salatiga) or Penggung (Boyolali). Susukan Village is an alternative route from Semarang to Sragen. Initially, Susukan District consisted of 24 villages, so it deserved to be expanded, due to the increasing population, volume of government and development activities to facilitate the implementation of government and development tasks. With the expansion of the Susukan District (forming the Kaliwungu District), services to the village community have become smoother, faster, cheaper and closer to the distance, for example, population administration management such as Identity Cards (KTP), Family Cards (KK) become faster. Likewise, if residents take care of birth certificates, death certificates can be assisted by the District if the community has an email. With better services, the community will know the meaning of sub-district division in the context of implementing regional autonomy.

**Keywords:** Subdistrict Expansion, Community Service, Semarang, Indonesia

**INTRODUCTION**

The 1945 Constitution of the Republic of Indonesia regulates: 1) The Unitary State of the Republic of Indonesia is divided into provincial areas and the provincial area is divided into districts and cities, each of which has a regional government which is regulated by law. 2) Provincial, regency and municipal governments shall regulate and manage government affairs themselves according to the principles of autonomy and assistance tasks. 3) Provincial, district and city governments have Regional People's Representative Council whose members are elected through general elections. 4) The Governor, Regent and Mayor respectively as the head of the provincial, regency and city government are elected democratically. 5) Regional governments carry out the widest possible autonomy, except for governmental affairs which are determined by law as the affairs of the Central Government. 6) Regional government has the right to stipulate regional regulations and other regulations to implement autonomy and co-administration. 7) The structure and procedures for regional government administration are regulated in law.

From the above formulation, it is clear that in order to carry out regional autonomy, it must be

based on law. The law that regulates regional governance is currently Law number 23 of 2014 as a substitute for Law Number 32 of 2004 concerning Regional Government. According to the law what is meant by regional government is the administration of government affairs by the regional government and the Regional People's Representative Council (DPRD) according to the principle of autonomy and duty of assistance with the broadest autonomy principle in the system and principles of the Unitary State of the Republic of Indonesia as referred to in the Constitution Republic of Indonesia in 1945 (Marzuki, 2005).

The meaning of autonomy in a narrow sense can be interpreted as independent, while in a broader sense it means empowered. Regional autonomy thus means the independence of a region in terms of making and making decisions regarding its own regional interests (Ubaidillah et al., 2000). Whereas what is meant by autonomous autonomous regions is a legal community unit having certain regional boundaries authorized to regulate and manage the interests of the local community according to their own initiative based on the aspirations of the community in the ties of the Unitary State of the Republic of Indonesia (Widjaja, 2002; Purwanto, 2016).

Regional government is the governor, regent or
