Due to development of infrastructure in some regions of Indonesia, existing cement producers are expanding their capacity and new investors began to build new factories as well. Portland cement is the most commonly produced cement in Rembang area, mainly using limestone (CaCO_3) mixed with additional material clay, shale, sand as source of alumino-silicate. This study aims to evaluate quality of sedimentary rocks from Ngrayong Formation in Gunem District as additional material in cement industry. Detailed field mapping and rock sampling are used to determine lithology types of study area, supported by pétrographie analysis. Geochemical XRF analysis aims to determine chemical composition of rock samples as standard parameter for material quality. Lithology of study area is sedimentary rocks composed of layers of quartz sandstone, siltstone, and

"Thanks for the publication!!! We are very happy to work with you on the 2nd edition of the International Conference on Sustainable Manufacturing, Materials and Technologies. A special thanks to Mrs. Ruth Levins, for kind coordination and immediate response for our queries. We also thank all AIPP Conference Proceedings staff for their great support and coordination for the success of ICSMMT 2020. We are eager to work with you in our 3rd edition of ICSMMT 2021 series."

Dr. H. Anandakumar (Editor, [volume 2292](#))
Sri Eshwar College of Engineering, Coimbatore, [India](#)

"A great appreciation should be delivered to the AIP Publishing team. We are very happy with the services provided by AIP Publishing. The team has done an excellent job from preparation to publication and were really helpful. It has been a wonderful experience working with them and I would be delighted to work with them again in the future. My sincere appreciation to all of the AIP Publishing team."

Dr. I. E. Putro (Editor, [volume 2226](#))
National Institute of Aeronautics and Space, [Indonesia](#)

"I would like to take this opportunity to thank AIP Publishing for publishing our proceedings in time. We have enjoyed the overall experience, from preparation to publication, and we especially appreciate the works of everyone in the AIPCP Office in accommodating ours and the author's interests. We definitely recommend our colleagues to collaborate with the AIPCP in publishing their conference papers."

Dr. Ahmad Randy (Editor, [volume 2175](#))
Indonesian Institute of Sciences, Tangerang, Indonesia

"We have recently worked together for the 2nd time and we are very happy with the services provided by AIP Publishing. You all are very professional."

Dr. Lukman Hanif Bin Muhammad Audah (Editor, [volume 2173](#))
Universiti Tun Hussein Onn Malaysia, Johor, [Malaysia](#)

"It was a pleasure to give a great appreciation to the AIP publishing team for the fast and excellent process in publishing the proceeding. We also very thankful for investing the time to examine the faulty in all papers before publication. We strongly recommend that the AIP publishing is the first choice to publish the conference proceedings. We hope to work with you again in the future."

Dr. Teguh Budi Prayitno (Editor, [volume 2169](#))
Universitas Negeri Jakarta, Jakarta, Indonesia

"It was a very great pleasure to work with the staff at AIP Publishing! We are all greatly thankful to the AIP Publishing team for the highest professionalism and friendly attitude!"
