Dear Mr haryono huboyo,

Thank you for submitting the manuscript, "Analysis of Removal of Particulates and SO2 from Coal Combustion Emissions Using a Combination of Cyclone and Wet Scrubber with Textile Wastewater Feed" to the journal TEKNIK.

The accredited journal Sinta 2 by Ristek Dikti. With our online journal management system, you can track the progress of the manuscript in the editorial process by logging into the journal web site:

Manuscript URL: <https://ejournal.undip.ac.id/index.php/teknik/author/submission/33883>
Author username: setiyo_huboyo

Another thing you need to do is send a contact number (WA) via google form (<http://bit.ly/penulisjurnalteknik>).

For your information, starting from Vol. 41 No. 2 August 2020, after the manuscript passes the review process and is declared as ACCEPTED, the author will be charged an article processing fee of 1 million rupiah or \$100 which must be paid before the manuscript is published through the TEKNIK Journal.

Authors who have objections to the above policy are welcome to withdraw the manuscript that has been sent to the TEKNIK Journal. We will only process manuscripts from serious and pro active authors.

If you have any questions, please contact us. Thank you for considering this journal as the publication space for your best work.

Dear Mr haryono huboyo,

Reviewers have reviewed and provided comments on the manuscript that you sent. The reviewer advised the author to revise the manuscript. Please revise and upload the revised manuscript and supporting documents again.

"You have 14 (fourteen) days from now to revise the manuscript, if it is not submitted until the deadline, then the manuscript will automatically be rejected."

The two files that need to be uploaded for the revision of the manuscript are:

1. Manuscripts / Articles that have been revised in MS Word
2. Responses to reviewers' comments in a separate file, also explain where the improvements are located (pages, columns, rows).

To upload the revised manuscript, please do it online at <http://ejournal.undip.ac.id/index.php/teknik> after you have logged in as Author. Then, click "Active" and click on the manuscript title. In the header "#xxxx Summary" there is a taskbar "Summary", "Review", "Editing", then click on "Review". In the "Editor Decision" section, please upload the two files in the "Upload Author Version" section by clicking Browse File, then clicking "Upload".

Thank you for your cooperation and trust in you for publication in the {\$ journalName} Journal.

Best regards,

{\$comments}

Reviewer A:

Does the paper title represent its content?

Yes , it does

Does the abstract reflect the paper content?

Yes , it does

Do the keywords indicate the scope of the research?

Yes , they do

Is the research methodology or the approach of the problem solving clearly described?

Yes , it is

Do the data presentation and interpretation valid and reasonable?

Yes , they do

Do the use of tables and figures help to clarify the explanation?

Yes , they do

Have the discussion and/or analysis been relevant with the results of the study?

Yes, they have.

Are the references used relevant? Is it sufficient?

Yes, they are.

Contribution to science

This study provide some information on the effectiveness of particulate and SO₂ using combination of cyclone and wet scrubber.

Originality

There is no study on the removal efficiency of combination of cyclone and wet scrubber using textile waste water.

Systematic

It has followed the provided guideline

Language

English

Writing accuracy

This article is well written however some typos are found within the article.

Reviewer's decision

Accept with minor revision

Comment about the paper

This paper discusses particulate and SO₂ removal efficiency using combination of cyclone and wet scrubber using waste water feed. The result indicates quite promising removal efficiency. How ever, authors need to provide more explanations on the origin of the waste water spesifically on the pre treatment that may be rquired before it can be utilized.
Authors need to re proofread the article to avoid any unnecessary typographical errors.

Reviewer B:

Does the paper title represent its content?

Yes, It does.

Does the abstract reflect the paper content?

Yes, It does, although it is needed some revisions.

Do the keywords indicate the scope of the research?

Yes, It does.

Is the research methodology or the approach of the problem solving clearly described?

Yes, It does, although it is needed some revisions.

Do the data presentation and interpretation valid and reasonable?

Yes, It does.

Do the use of tables and figures help to clarify the explanation?

Yes, It does.

Have the discussion and/or analysis been relevant with the results of the study?

Yes, It does. There are some revisions for the discussion.

Are the references used relevant? Is it sufficient?

Yes, It is.

Contribution to science

This paper will be can add the science.

Originality

This paper is original, it shows some research before it.

Systematic

The systematic is good.

Language

The language is good.

Writing accuracy

The writing accuracy is good, although author must do to revise the paper.

Reviewer's decision

I recommendation this paper is accepted with the revision.

Comment about the paper

The paper is good.

Dear Mr haryono huboyo,

All the Editorial Boards and Reviewers congratulate Mr / Mrs "Mr haryono huboyo" for the article submitted to: Jurnal TEKNIK , with the title: "Analysis of Removal of Particulates and SO₂ from Coal Combustion Emissions Using a Combination of Cyclone and Wet Scrubber with Textile Wastewater Feed" is ACCEPTED for publication.

Furthermore, the article will go into several stages to adjust to the format determined by the TEKNIK Journal, such as layout, copy edit, and proof read author. This stages require good communication and cooperation between the author and the journal manager. All processes are time-limited, so the delay in the Author's response will cause delays in Publication. If the deadline is over then the decision ACCEPTED will be revised and may become REJECTED.

Starting from 2020, the author is charged with article processing charge \$100 for Regular OR \$130 for Fast Track Review. It must be paid before the article is published through the Journal TEKNIK.
The VA account number will be informed soon.

Thank you for your contribution to the Journal TEKNIK.
