Editor's Comment:

-----  
Reviewer A:

1. Please add several references from journal article
2. Please add gap analysis in the introduction section
3. The formula should be mentioned in methods section
4. Figure 1-4 is not appropriate. I consider to add axis
5. The discussion is missing

-----  
Reviewer B:

Some formatting issues are found for instance the use of commas and dots.

The equations are repeated twice. Please consider to delete the equation which is placed in the result and discussion

Please do not use Heru in Rizky ... but consider to put only the newer version of the references

There is no primary and secondary data. Please consider which is data gathered from literature and field survey
