i Improved CiteScore methodology ×

CiteScore 2023 counts the citations received in 2020-2023 to articles, reviews, conference papers, book chapters and data papers published in 2020-2023, and divides this by the number of publications published in 2020-2023. [Learn more >](#)

Applied Mechanics and Materials - Details**ISSN: 1662-7482****Details****Volumes****Editorial Board****About:**

"Applied Mechanics and Materials" is a peer-reviewed journal which specializes in the publication of proceedings of international scientific conferences, workshops and symposia as well as special volumes on topics of contemporary interest in all areas which are related to:

- 1) Research and design of mechanical systems, machines and mechanisms;
- 2) Materials engineering and technologies for manufacturing and processing;
- 3) Systems of automation and control in the areas of industrial production;
- 4) Advanced branches of mechanical engineering such as mechatronics, computer engineering and robotics.

"Applied Mechanics and Materials" publishes only complete volumes on given topics, proceedings and complete special topic volumes.

Authors retain the right to publish an extended, significantly updated version in another periodical.

All published materials are archived with [PORTICO](#) and [CLOCKSS](#).

Paper Title	Page
<p><u>Behavior Prediction of Ship Structure due to Side Impact Scenario by Dynamic-Nonlinear Finite Element Analysis</u></p> <p>Authors: Aditya Rio Prabowo, Dong Myung Bae, Jung Min Sohn</p> <p>Abstract: The development of safety has become issue especially for marine and ocean vessels. However, the limitless possibilities of various phenomenon on the sea, make the ...more</p>	253
<p><u>Reliability Analysis of APN-A Offshore Jacket Using Monte Carlo Finite Element Method</u></p> <p>Authors: Agro Wisudawan, Daniel M. Rosyid, Moh. Luthfi Baihaqie</p> <p>Abstract: Reliability analysis is one of important parameter to ensure the safety of structure during its life time. Especially for large structure which has a high ...more</p>	259
<p><u>Developing the Structural Integrity Management System for Ageing Fixed Offshore Oil Platforms in Indonesia</u></p> <p>Authors: Raditya Danu Riyanto, Murdjito Murdjito</p> <p>Abstract: Offshore structure, particularly fixed offshore structures, should be kept in the performance for the fit-for-purpose condition during their operating lifetime. For fixed ...more</p>	265
<p><u>Fatigue Life Re-Assessment of FSO Spread Mooring System</u></p> <p>Authors: Muhammad Irfan</p> <p>Abstract: Re-assessment fatigue life on spread moored system of Floating Storage and Offloading (FSO) vessel moored in irregular wave has been carried out based on hybrid ...more</p>	271

- Effects of Parallel-Middle-Body Relative Length and Stern Form on the Wake Fraction and Ship Resistance** 278
Authors: Ketut Suastika, Fajar Nugraha
 Abstract: Effects of parallel-middle-body relative length and stern form of a 10450-DWT tanker on the wake fraction and ship resistance are studied by using computational fluid ...[more](#)
-
- An Investigation into the Effect of Bilge Keels to the Roll Motion Response of Fishing Vessel** 284
Authors: Hasanudin Hasanudin, Jeng Horng Chen, I Ketut Aria Pria Utama, Haris Hendratmoko
 Abstract: Stability of a ship is very influenced by ship's roll motion, which is able to cause the ship to capsize. One of the main component which influence the roll motion, is the ...[more](#)
-
- Wave Load Analysis of the Corvette Ship in the Sea Water of Indonesia** 291
Authors: Aries Sulisetyono, Teguh Putranto
 Abstract: Wave load prediction of ship should be considered in the design stage of ship's construction. The excessive of wave load might cause a structural failure of ship during ...[more](#)
-
- Pipe Transmission Project Planning Using What If Analysis Method** 296
Authors: Silvianita Silvianita, Amalia Herdianti Winda, Mulyadi Yeyes, Suntoyo Suntoyo
 Abstract: In order to succeed Indonesia's mission to provide 23.000 MegaWatt, the gas pipeline transmission has been built. The Project consists of many activities that related ...[more](#)
-
- Strength Analysis of Portable Blast Room Using Modular Glass Reinforced Plastics Wall Panel by Finite Element Method** 302
Authors: Aulia Windyandari, Djazuli Said Solichin, Ahmad Fauzan Zakki
 Abstract: In the shipbuilding and ship repair industry, the most common surface preparation technique used is abrasive blasting. The abrasive blasting and the other ...[more](#)
-
- Effect of Underwater Welding in Marine Environment and Surface Welding to Mechanical Properties of Steel Weld Joint** 308
Authors: Herman Pratikno
 Abstract: The offshore structure gradually will get damage. A number of offshore structure maintenance method require underwater working. Because of that, underwater ...[more](#)
