Your PDF Numerical Simulation of Heat Transfer Enhancement from Tubes Surface to Airflow Using Concave Delta Winglet Vortex Generators has been built and requires approval

RE em.rineng.0.7e739b.f0121a74@editorialmanager.com on behalf of Results in Engineering <em@editorialmanager.com>
To: Syaiful Tue 10/4/2022 7:22 PM

Dear Dr Syaiful,

The PDF for your submission, "Numerical Simulation of Heat Transfer Enhancement from Tubes Surface to Airflow Using Concave Delta Winglet Vortex Generators" is ready for viewing.

This is an automatic email sent when your PDF is built. You may have already viewed and approved your PDF while on-line, in which case you do not need to return to view and approve the submission

Please go to <https://www.editorialmanager.com/rineng/> to approve your submission.

Username: Syaiful
If you do not know your confidential password, you may reset it by clicking this link: <https://www.editorialmanager.com/rineng/l.asp?i=238036&l=Z62QSVUA>

Your submission must be approved in order to complete the submission process and send the manuscript to the Results in Engineering editorial office.

Please view the submission before approving it to be certain that your submission remains free of any errors.

Thank you for your time and patience.
