Dear Author/Co-Author

A manuscript entitled "Carvedilol suppresses apoptosis and ion channel remodelling of HL-1 cardiac myocytes expressing E334K cMyBPC" has been successfully submitted online by Dr. Udin Bahrudin and is presently being given full consideration for publication in Drug Research.

The manuscript ID is: DR-2015-02-0962

You can view this manuscript and check the status of papers you have authored/co-authored at any time by checking your "Author Center" after logging in to <https://mc.manuscriptcentral.com/drugres> .

If there are any changes in your street address or e-mail address, please log in to Manuscript Central and edit your user information as appropriate.

Please mention the above manuscript ID in all future correspondence or when calling the Editorial Office for questions.

Thank you for submitting your manuscript to Drug Research.

Yours sincerely,
Jess Harris
Editorial Office

26-Feb-2015

Dear Dr. Bahrudin,

Your manuscript with the ID DR-2015-02-0962, entitled "Carvedilol suppresses apoptosis and ion channel remodelling of HL-1 cardiac myocytes expressing E334K cMyBPC" which you submitted to Drug Research has been reviewed. The comments of the reviewers are included at the bottom of this letter.

The reviewers have recommended publication, but also suggest some major revisions to your manuscript. Therefore, I invite you to respond to the reviewers' comments and revise your manuscript.

To revise your manuscript, log into <https://mc.manuscriptcentral.com/drugres> and enter your Author Center, where you will find your manuscript listed under "Manuscripts with Decisions". Under "Actions", click on "Create a Revision". Your manuscript number has been appended to denote a revision.

When submitting your revised manuscript, you will be able to respond to the comments made by the reviewers in the space provided. Please use this space to document any changes you made compared to the original manuscript. In order to expedite the processing of the revised manuscript, please be as specific as possible in your response to the reviewers comments.

You will be unable to make your revisions within the online submission system. Instead, revise your manuscript on your computer using a word processing program and save it on your computer. Please also highlight the changes to your manuscript within the document by using colored text. Once the revised manuscript is prepared, you can upload it and submit it through your Author Center.

IMPORTANT: Your original files are available to you when you upload your revised manuscript. Please delete any redundant files before completing the submission.

If you have figure files please provide production quality images. For coloured & black/white figures 300dpi, for diagrams and line drawings 600dpi and we ask you provide them as gif, tif or jpeg files. Please upload your figure files individually.

Please could complete the Conflict of Interest form (downloadable from our website) ensuring that all authors have signed. You can either email this completed form to the editorial office (drugresearch@editorialoffice.co.uk) or upload it to the submissions system with your revised manuscript under the file designation 'supplementary files not for review'.

Because we are trying to facilitate timely publication of manuscripts submitted to Drug Research, your revised manuscript should be uploaded within the next 12 weeks. If it is not possible for you to submit your revision within the next 12 weeks, please contact us. Otherwise, we may have to consider your paper as a new submission.

Once again, thank you for submitting your manuscript to Drug Research. We look forward to receiving your revision.

Sincerely,
Prof. Martin Wehling
Editor-in-Chief
Drug Research
martin.wehling@medma.uni-heidelberg.de

Reviewers' comments to author:
Reviewer: 1

Comments to the Author
1-Figure 1... appears over two pages (pages 20 and 21) and should be combined in one set.

- 2- The explanation under the figures legends should be reduced in order not to repeat what is explained in the text...
- 3- Reference number should better follow the author's name...e.g. page 12 line 6.. Kishihara et al [15] and same page line 8...Li et al [14]
- 4- Some linguistic mistakes should be corrected...e.g. page 8 under Drugs : Carvedilol "were" kindly provided...should be corrected to "was".

Reviewer: 2

Comments to the Author

The manuscript is well written and documented. However, there are some clinical and experimental studies similar to your work.

Please clarify the differences between these investigations and yours.

1. Congestive heart failure induces endothelial cell apoptosis: protective role of carvedilol. J Am Coll Cardiol. 2000;36(7):2081-2089
2. Effects of carvedilol on cardiomyocyte apoptosis and gene expression in vivo after ischemia-reperfusion in rats. Journal of Huazhong University of Science and Technology. 2003;Volume 23, Issue 2, pp 127-130.
3. Beneficial effects of carvedilol on cardiomyocyte apoptosis and bcl-2/bax expression after acute myocardial infarction an experiment with rats. 2006, 86(13):919-922.

Editor: Wehling, Martin

Comments to the Author:

(There are no comments.)

Comments Regarding Format from the Editorial Office:

Please amend your manuscript as follows:

- 1) Please ensure that all authors listed on the title page are also entered on the submission system.
- 2) Please ensure that the running title on the title page is the same as the running head entered on the system, with a maximum of 40 characters.
- 3) Please upload figures in the correct file format - Please could you provide your figures as individual .doc, gif, tif or jpeg files.
- 4) Please could you complete and return the Conflict of Interest form (downloadable from our website) ensuring that ALL authors have signed (electronic signatures are not acceptable). You can either email this completed form to the editorial office (drugresearch@editorialoffice.co.uk) or upload it to the submission system under the file designation 'supplementary files not for review'.

Dear Dr. Bahrudin,

It is a pleasure to accept your manuscript entitled "Carvedilol suppresses apoptosis and ion channel remodelling of HL-1 cardiac myocytes expressing E334K cMyBPC" in its revised form for publication in Drug Research. The comments of the reviewer(s) who reviewed your revision are included at the end of this letter.

You find your manuscript as well as this decision letter in your Author Center under Manuscripts with Decisions.

Your manuscript will be forwarded to Georg Thieme Publishers. They will prepare your manuscript for printing. Thieme will contact you in the next weeks for further details.

Thank you for your contribution. On behalf of the Editors of Drug Research, we look forward to your continued cooperation to the journal.

Sincerely,
Prof. Martin Wehling

Dear Author,

Please find attached 4 PDF documents:

1. Permission to Publish and Copyright Transfer Agreement (CTA)

Please read it carefully, sign page 2 using a digital signature and return it to us by clicking the red envelope.

2. Conflict of Interest Declaration (COI)

Please read it carefully, sign it using a digital signature and return it to us by clicking on the red envelope.

3. Galley proof of your article

- When reviewing your galley proof, **please make any necessary changes** in the PDF **using the PDF edit function** (delete, delete and replace and/or insert). Please do **not** use the annotation function as this will cause technical problems and may cause serious delay in the publication process.

- **Please do not delete blocks (■) without comment!** Please answer the questions indicated by the block or add the missing information.

- Alternatively, you can print out the PDF documents and return the signed forms and the corrected galley proof* via fax, via email as a scanned document, or by regular mail.

* *Correction markup symbols can be found in the Permission to Publish and Copyright Transfer Agreement on page 2, right hand column.*

- If you have no corrections, please note this on the first page and return it together with the CTA and the COI.

4. Page Charges form

When submitting your article you agreed to be paying page charges should your paper exceed a certain number of pages. If this is the case, please fill in and sign the page charges form and return it together with the other documents.

Page charges apply only to original research papers; reviews are exempt.

NB: Please return ALL documents – the signed CTA, COI and page charges form as well as the galley proof with your corrections – together; if possible within 3 days. Please note that your article cannot be published before receipt of the signed documents.

If you do not have an up-to-date version of a PDF reader, Adobe Acrobat Reader can be downloaded free of charge at: <http://www.adobe.com/de/downloads/index.html>

Thank you for your cooperation!

Yours sincerely,

Hisatome Sensei,

There was a miscommunication. I thought that I did not necessary to reply the last email from the publisher, but they was waiting my response on the final proof of article.
Then, I have replied it 2 days ago. I forward it to you in another email.

Sincerely,

Udin
