Catatan Penilaian artikel oleh Reviewer :

- Kesesuaian dan kelengkapan unsur isi jurnal:**  
Kelengkapan jurnal dan kesesuaian topik memenuhi
- Ruang lingkup dan kedalaman pembahasan:**  
Ruang lingkup kajian cukup tetapi kedalaman pembahasan kurang. Bahkan Metode lebih banyak dibandingkan dengan Hasil dan Pembahasannya.
- Kecukupan dan kemutakhiran data/informasi dan metodologi:**  
Kecukupan pustaka acuan mencukupi, namun kemutakhiran pustaka kurang.
- Kelengkapan unsur dan kualitas terbitan:**  
Penerbit jurnal ini (BluePen Journal) termasuk ke dalam Questionable Publisher menurut BealList (<https://bealists.net/>).

**Catatan penilaian artikel oleh Reviewer:**

- Kesesuaian dan kelengkapan unsur isi jurnal:** Artikel ini mencakup judul, abstrak, pendahuluan, metode komputasi, hasil dan pembahasan, kesimpulan dan daftar pustaka.
- Ruang lingkup dan kedalaman pembahasan:** Isi artikel sesuai dengan ruang lingkup topik jurnal yang meliputi analisis kadar asam fenolat dalam beberapa merek kopi komersial yang dijual di Indonesia. Hasil percobaan sangat sedikit, seadanya dan dibahas dengan dukungan oleh hanya 4 pustaka. Oleh karenanya, artikel ini tidak menunjukkan kedalaman dan kontribusi ilmiah yang cukup memadai, juga kurang teliti dalam mengaitkan pustaka dengan hasil percobaan dan analisis kimianya.
- Kecukupan dan kemutakhiran data/informasi dan metodologi:** Metode percobaan ditulis berdasarkan pada pustaka yang cukup relevan. Data yang ditampilkan dalam artikel tidak cukup banyak untuk artikel dalam naskah artikel sebuah jurnal. Artikel ini menggunakan 19 pustaka dan 7 di antaranya tergolong mutakhir (36,84%).
- Kelengkapan unsur dan kualitas terbitan:** *Journal of Medicinan Plant and Herbal Therapy Research* ini tergolong jurnal ilmiah internasional yang kurang baik. Editorial board berasal dari beberapa negara, terdapat pedoman penulisan yang jelas dan format penulisan cukup konsisten. Jurnal ini diterbitkan oleh BluePen Journals dan **tidak terbit dengan jumlah artikel yang konsisten dan juga tidak terbit secara teratur (berkala)**. Gaya selingkung yang digunakan pada jurnal ini cukup baik, namun artikel ini tidak menunjukkan gaya tulisan, cara penyajian gambar dan kualitas penggunaan Bahasa Inggris yang memadai. Beberapa gambar sangat buram sangat kecil sehingga tidak jelas. Hampir semua artikelnya ditulis oleh penulis dari Asia (Timur Tengah, India, Indonesia) dan Afrika.

## Total phenolic acid contents in some commercial brands of coffee from Indonesia

R Lelyana, B Cahyono - Arabica, 2015 - bluepenjournals.org

Coffee is a favorite drink in the world which has been consumed for centuries. It is one of alternative drinks favored by Indonesian people, as well as people from other countries, since the time of our ancestors coffee drinking has been the culture for generations. Their antioxidant content are of natural ingredients and are derived from plants in Indonesia (Rohman et al., 2006). Coffee contains complex compounds including caffeine (Lanchane, 2006) and chlorogenic acid (Nardini et al., 2002; Clifford et al., 2003). Caffeine is an alkaloid ...
