Dear Dr Rina Dwi Indriana

We are so sorry for sending the review result very late. We have just finished the review and made decision on your manuscript entitled [The Mass Distribution Of Soputan Volcano Based On Gravity Data (GGmPlus)] which was submitted to Journal of Physics and Its Applications.

Based on review results, we decided that revision is required. We also send the review results from the reviewers as below.

Notes from Editor:

1. Please revise your submitted manuscript according to reviewer's comment.
2. Please ensure that using the similarity software, the similarity of the revised manuscript is less than 20%.
3. In order to ensure the readability and the quality of the journal, revised manuscript must go through language editing of professional company before publication.
4. Please ensure that your revised manuscript has followed the guideline for authors.
5. Please revise the manuscript following the format of Journal of Physics and Its Applications as in attachment.

Please respond to this revise and resubmit request before 15 March 2022.

Please login into this follow url <https://ejournal2.undip.ac.id/index.php/jpa/login> for more detail.

Your sincerely

Dr.Eng. Ali Khumaeni

Reviewer B:

For Author(s):

1. After getting the subsurface structure formation from Soputan volcano, what will be done from this volcano structure data? Add the explanation about this in 3-5 sentences (or 1 paragraph) so that the purpose of the research is not only to find out the subsurface structure of the volcano.
2. Add more references especially from latest journal
3. Add the eruption's history of Soputan volcano in Introduction chapter
4. In my manuscript there are many writing errors, especially no spaces between words. Possibly also because of the different versions of MS Word used. Please editor to be able to check this.

Submission Title: The Mass Distribution Of Soputan Volcano Based On Gravity Data (GGmPlus)

Dear Dr Indriana et al.

On behalf of the editorial board, we are very pleased to inform you that your paper entitled The Mass Distribution Of Soputan Volcano Based On Gravity Data (GGmPlus) has been accepted to be published in Journal of Physics and Its Applications (ISSN: 2622-5956). Congratulations!

We are now processing your revised manuscript for final editing.

Your accepted paper will be considered for publication in Journal of Physics and Its Applications (JPA) Volume 4 No 2 (2022): May 2022

We wish to thank you for submission of the manuscript to Journal of Physics and Its Applications (ISSN: 2622-5956) and look forward to continued collaboration in future.

Sincerely yours,

Dr. Ali Khumaeni

Dear Dr. Rina Dwi Indriana

First, we would like to thank you for contributing your valuable research work in the Journal of Physics and Its Applications (JPA).

Please find herewith the Proof Draft of your paper (in editable Word Format), which is going to be published in the Journal of Physics and Its Applications (JPA) volume 4 issue 2, May 2022.

1. Please go through it once again as per the Guidelines of the journal provided to you earlier.
2. Please don't do any changes with pagination and font type & size. The actual pagination will be carried out after receiving the corrected proof from you.
3. Check the author's names, affiliation and E-mail id of the Corresponding author. If not given properly, give the same.
4. If you make any textual change, please do it in red or blue color in Word File attached, so that the typesetter could understand and correct it appropriately.
5. Check spellings, grammar, and units of different quantities throughout the manuscript.
6. Check all references once again for their correctness in terms of the name of the journal, Volume and Number, Year, Page no etc.

We also attach the JPA copyright. Please fill the copyright and send it back together with the corrected Proof.

Please send it back within 48 hours (to jpa@live.undip.ac.id cc to khumaeni@fisika.fsm.undip.ac.id) from the time of receiving this mail with the following verification.

Thank you for your cooperation and support.
