**ABSTRACT:**

(Do not omit from manuscript file.) \*

Theaimofthestudywastoexamineofconcentratewithfermentedchickenlitteroninvivo feedconsumption,nutrientdigestibility(drymatter/DM,organic matter/OM, crude fiber/CF, extract ether/EE, crude protein/CP), TDN, and average daily gain (ADG) in sheep. The research used a completely randomized design (CRD) with 4 treatments and 3 replications, namely P0 = concentrate without the addition of fermented litter, P1 =90% concentrate + 10% fermented litter, P2 = 80% concentrate + 20% fermented litter, P3 = 70% concentrate + 30% fermented litter and P4 =60% concentrate + 40% fermented litter. The parameters in this research were dry matter digestibility (DMD), organic matter digestibility (OMD),extract ether digestibility (EED), crude fiber digestibility (CFD), crude protein digestibility (CPD), Total Digestible Nutrients (TDN), feedconsumption and average daily gain. The results of the research on nutritional digestibility, TDN, feed consumption and ADG of sheep feddifferentfermentedlitterdidnotsignificantlyaffectOMD,DMD,EED,CPD,CFD,TDN,drymatterconsumption,andaveragedailygain(ADG).

**Submission Cover Letter:** \*

EditorinChiefOnlineJournalofAnimalandFeedResearch

Here, we submit an article entitled "The Effect of Fermented Litter as ConcentrateSubstituteonIncreasingProductivityofSheep"forpossiblepublicationinthe OnlineJournal of Animal and Feed Research. All authors have read and approved themanuscriptandtakefullresponsibilityforitscontent.Allauthorsdonothave conflictofinterestinregardtothisresearchoritsfunding. Than kyouverymuchforyourattention.

Best regards,MarryChri

Dear Author

The manuscript needs major revision, yet. Table 2 should be completed with statistical differences (a, b, ab, NS, ...). You see an example in the attached sample file (see table 1 and table 2 in sample file).

Table 2 of your manuscript needs to improve in statistical terms. Please find attached files, and do corrections only in this version.

Also, after correction of table 2 you need to discuss for significant differences (please mention your correction with highlight).

Dear  
Dr. A. Lotfi,  
Managing Editor of OJAfr

I sent in an attachment of the manuscript that has been corrected and colored green. I apologize profusely for not being thorough in making repairs to the manuscript.

On Fri, Feb 17, 2023 at 12:52 PM InfoOjafr<editorojaf@gmail.com> wrote:

Dear author;

I am wondering where you wrote **NS** in table 2, why you wrote "Based on the research results in Table 2 showed that there was a significant effect ( $P < 0.05$ ) of different feed treatments on Nutrient digestibility, DM consumption and daily body weight gain of sheep" ?

Please carefully check text below table 2. if results are fully not significant why do you write more and more regarding similar works.

These parts should be shortened.

Please solve these conflicts in the manuscript, and highlight with green, where you changed. I am waiting for your reply.

Dear author(s)

Thanks for the corrections, however there are still more corrections that need to be made.

Attached is the final form of your article in MS Word file. Please make all your changes directly to the file attached. Kindly check again and resend to us in its final form as soon as possible (in 48h).

The full text of articles will be online in the current issue (Vol 13(2): March, 2023).

Kindly revise the manuscript as per reports of the reviewer. You are advised to be careful while undertaking the revision.

**Revised versions of articles with the same errors will be considered for publication in the next issues, when all changes are done.** Please delete a

ll the items deleted by editors "as Track changed" and apply all the corrections carefully. You can turn off "Track Changes" tab (if any) and then "Accept" or "Reject" changes done by editors in the manuscript.

I ask you to be careful in reading and checking the galley proofs; because they are in final form, no changes can be made after online publication, so the proofs should be checked extremely carefully.

**Please don't change the format of the paper and its filename. For checked versions please add "final" to the end of files' names.**

Please send the revised version of this paper only via Email, not via online submission system.

Please send the filled and signed declaration form for this article and also provide a [professional GA](#) according to instructions. We appreciate your

interest

Dear Dr. Marry

Thank you for sending the revision. You are always welcome to send your high quality articles.

Your article(s) has already been published in the [Online Journal of Animal and Feed Research](#). Kindly check online and let us know within one week if there is any change or corrections required.

Please note that the DOIs of the articles will be normally activated within 1 week, after all the published versions are fully approved by the authors. Then the articles will be enriched. You can also check them directly via <https://search.crossref.org/>.

The articles will also be uploaded in the international dark archives like [Scienceline Publication Repository \(http://eprints.science-line.com/\)](http://eprints.science-line.com/) to increase accessibility, usability and citation.

In addition, to increase the article views and citation, we recommend that authors upload a copy of the full text of the published version in [Internet Archive](#), [Oark Library](#), [ResearchGate](#), [Twitter](#), [Academia.edu](#), etc.

We appreciate your interest
