Dear Hermin,

Please find attached a review of your paper. It needs some revisions. Please accept the track changes and respond to each comment carefully. Please do the revisions in this version itself: it is edited. Revise and save as 'ISVSej_10.4.9_Hermin revised' without any track change marks or comments. Please also drop the resolution of images to fit an e-journal. Send me the word copy.

Dear Hermin,

Few questions to you.

1. Did you use the reviewed paper to do the revisions or a different version? Please confirm. If not, do it in the reviewed paper which is already edited. I see the absence of full stops and commas in the right places and grammar issues. There is a figure before the Fig. 01 not numbered.. I see grammar and issues of not having full stops and commas in the right places. Please check for all minor details.
The font inside the tables is Ariel Narrow point 10. Table is bold in the title. Follow the template.

Please double check. Read carefully and send me a perfected copy in word.

dear editors

1. I made a revision in the file that you have commented on. (the same version from your revision file) - I accept all changes and stop tracking.
2. I added several sentences and omitted several sentences according to the results of the review.
3. I already have the permission letter according to the reviewer's question (attached)
4. I have changed the font inside the tables is Ariel Narrow point 10. The table is bold in the title
5. In Table 1 there are dots which are fields in the questionnaire (correspondents are asked to fill in the dots with the answers provided).

Thank You

Deare Hermin,

In the final reading, it is discovered that Fig. 3 is problematic. Please produce it as 3 separate tables and provide them with titles for each room. Add them as Fig 03, 04 & 05.

Do these changes in the version of the paper as attached. Do not make any other changes. It is edited.

Please send it back to me with this change of Fig. 03.
