Manuscript Title: Cigarette Smoke Exposure, but Not High Fat Diet, is Able to Induce Atherosclerosis in Wild-Type Rats
Journal of Biomedicine and Translational Research (JBTR)

Dear Author(s),

Thank you for submitting the above manuscript to the JBTR for consideration of publication.

We are pleased to inform you that the blinded peer review process is completed. The reviewer comments are appended below for the authors' revision.

Please revise the manuscript and submit 2 copies (one clean copy and one annotated blinded copy) of the revised submission to the editorial office by 9 October 2022.

In the annotated blinded copy, indicate all changes made by yellow-highlighting the amended portions and also by identify the location (page, paragraph and line numbers) in the manuscript. The numbers should correspond to the numbering of your reply to the reviewer comments. Please include a blinded cover letter providing a point-by-point reply to the reviewer comments, and number each point accordingly.

To submit your revision, go to <https://ejournal2.undip.ac.id/index.php/jbtr> and log in as an Author. Under the menu item 'Active Submissions', you will be able to find your submission record.

Thank you for your support to the JBTR.

Yours sincerely,

Editor

Journal of Biomedicine and Translational Research (JBTR)

Reviewers' and Editorial comments:

Editorial review:

- Please provide DOI in all references if applicable
- Complete all the authors data in the website, under menu Submission-Edit Metadata
- Font size Running title: 10
- Follow the guidelines:
<https://ejournal2.undip.ac.id/index.php/jbtr/about/submissions#authorGuidelines>

Reviewer 1

Section I: Comments per Section of Manuscript

1. Introduction:

Please add at a glimpse information about :

- The effect of the level of adrenaline, high-fat diet, and an exposure of cigarette to atherosclerosis.
