Maximum power point tracking simulation for a photovoltaic system

Browser window showing a Gmail email from ICITACEE 2015. The email subject is "[ICITACEE 2015] Your paper #1570217491 ('Maximum Power Point Tracking Simulation for a Photovoltaic System')". The sender is ICITACEE 2015 <icitacee2015-chairs@edas.info>.

The email content includes:

Dear Mr. Susatyo Handoko:

Congratulations - your paper #1570217491 ('Maximum Power Point Tracking Simulation for a Photovoltaic System') for ICITACEE 2015 has been accepted with MAJOR REVISION for 2015 THE 2nd INTERNATIONAL CONFERENCE ON INFORMATION TECHNOLOGY, COMPUTER, AND ELECTRICAL ENGINEERING and will be presented in the oral session.

However, please pay attention to the comments provided by the reviewers. The reviews are below or can be found at <https://edas.info/showPaper.php?m=1570217491> or Please complete your paper as reviews bellows:

First reviewer:

1. The abstract is too short. It should provide the overview of methodology and result in a concise and conclusive way.
2. Several non-English words are still present. Meanwhile, the grammatical errors are found in parts of the manuscript.
3. In-depth analysis on the phenomena should be provided, not just summarize the trend. i.e. why does the temperature affect the power output? How can it be explained from the model used?

Second reviewer:

1. Abstract is poorly written. Abstract is considered trivial. it is strongly to revise abstract in better structure and it must contain short background, proposed novel method and the quantitative and qualitative results.
2. Insufficient literature review as the background of the works. it is strongly to improve literature reviews to highlight the different of proposed method to previous

125 dari 127

2. Insufficient literature review as the background of the works. It is strongly to improve literature reviews to highlight the different of proposed method to previous references. Major contribution must be easily found, unfortunately it is not clear.

3. Many grammatical error are found. It is important to have assistance from a professional proof reader to correct the grammar and mistyping.

4. Figure 6 - 12 are blurred. The authors are suggested to improve the picture to be in finest quality.

5. No depth analysis is written. The authors are suggested to provide the strong analysis regarding the experimental results.

Conclusion is too trivial and not based on depth analysis. The authors are suggested to provide better conclusion

The final, camera-ready paper should be submitted before 25 September 2015 in order to be included in the conference proceedings. In addition, the registered paper must be presented in the conference for inclusion in the IEEEExplore index.

Regards,
DR. Rizal Isnanto
ICITACEE 2015 Chair

Note to authors:
We strongly suggest the authors to improve the English. Grammatical errors are found all over the manuscript. The bad usage of English can be a justified reason for IEEE review board to EXCLUDE your paper from IEEEExplore.

Dear author(s),

You can upload the final manuscript until September 28th 2015. Please pay attention to these requirements:

1. Make sure your final manuscript had followed each of the review comment(s) under your paper profile.
2. Make sure your final paper following the IEEE template (http://www.ieee.org/publications_standards/publications/conferences/2014_04_msw_a4_format.doc).
3. Make sure your paper is on "PDF format" by converting your paper via pdf xpress (<http://pdf-express.org/>). The conference ID is 36226x.
4. Make sure to fill the copy right form and upload it in "PDF format" (<http://www.ieee.org/documents/ieeecopyrightform.doc>).
5. For your registration you can check on <http://icitacee.undip.ac.id/index.php/icitacee/index/pages/view/2015-registration>. After payment, you can email the proof of the payment on dania@ce.undip.ac.id cc: rizal_isnanto@yahoo.com.
- 6 Please put the presenter name on your paper profile.

Thank you for your attention.

Regards,
ICITACEE 2015 Committee.
