PREFACE: 6th International Conference of Education, Concept, and Application of Green Technology

The 6th International Conference on Education, Concept, and Application of Green Technology by Engineering International Committee (EIC 2017) was held in Grand Candi Hotel on 11th October 2017. This event was organized by Faculty of Engineering, Universitas Negeri Semarang (UNNES), Indonesia.

The conference was successfully carried out with more than 100 pre-registered authors submitted their works in the EIC 2017. The 85 presented papers preserved the high pledge recommended by the written abstracts and the program was chaired in a professional and efficient approach by the session chairmen who were selected for their international in the subject. The 56 selected papers were reviewed by reviewers from various countries and edited by reputable experts.

The committee has accepted full papers from USA, Australia, Thailand, Philippines, Malaysia, and Indonesia. This conference provides a platform for academicians, researchers, professionals, industries, and other stakeholders from all over the world to explore and share their experiences, information, research results, exchange state-of-art findings and views as well as discuss various cutting-edge issues that are related to the theme of this conference. Moreover, this conference provides a discussion forum to establish business or research relations and to find global partners for future collaboration.

Organizing an international conference involves great energy to finish complex and substantial detail therefore I would like to express my gratitude to all members of EIC 2017 organizing committee for their sincere cooperation to hold this event. EIC 2017 would not be possible without our keynote speakers, presenters, reviewers, all participants, and Universitas Negeri Semarang.

Adhi Kusumastuti, S.T., M.T., Ph.D.

Chairman of EIC 2017
