Dear Dr. Sridevi M (Chief Editor of RJPBCS)

Herein, we submitted a manuscript with title “Isolation and Identification of Sponge-Associated Fungus Producing Anti Multidrug-resistant (MDR) Bacterial Substances” that contain a method of molecular base identification a fungal living associated with a marine sponge collected from Indonesia. In this paper, we also discuss the bioactivity of extract produced by the fungus.

We hope this paper can be published in the “Research Journal of Pharmaceutical, Biological, and Chemical Sciences” and became an inspiration for other researchers working on the natural product, microbiology or biotechnology.

We are waiting for the decision of accepting the manuscript.

Sincerely,

Dr. Agus Trianto
