Dear Editor in Chief of PAROLE,

I am happy to hear the announcement. Sure, I will revise based on the reviewer's suggestion.

Thank you

Best wishes,  
Nurhayati

Reviewer B:

Review - 31398-91900-1-RV – Discourse of Covid-19 in Media Recommendation The Discourse of Covid-19 Pandemic Policies in Indonesia After carefully reading the manuscript I recommend that the article be accepted with minor revision. This is a good article with original findings, a study on an actual phenomenon using relevant approach.

The points of minor revision should refer to the following suggestions. They are mainly technical.

1 provide keywords; at least 3 keywords are required for a journal article. They are missing.

2 for non-English terms, use italic

3 check again typeface for numbering

4 consult author's guidelines again for the writing of reference list

5 in-text reference needs to be consistent. Pay specific attention to the use of comma, symbol '&' for more than one author

6 tables need to be positioned in the center of the page

7 language other than English (e.g. Indonesian) needs to be italicized.
