Dear Authors,

After the committee tried to assist one of the authors to follow up on the email request to submit an article, it can be concluded that the email was genuine from AIP.

The editor's request for explanation was not answered by AIP because it turned out that in one of the stages of submitting information that the editor should not have known, namely the open access selection clause which has consequences for a certain amount

of payment.

Thus, the authors are requested to follow up on the email from aipcp-edoffice@aip.org to finalize the submission of articles in the ISFA 2021 proceedings.

Thus the information from us, we apologize for the inconvenience that has arisen in the last few days.

Always healthy greetings,
