Aim and Scope

Food Research is an **Open Access** journal that publishes reviews, original research articles and short communications focusing on **food science and technology, food service management, nutrition, nutraceuticals, food innovation, and agriculture food science.**

The Journal welcomes papers within the intended scope as follows:

- Food science and food chemistry
- Food technology, food processing, and food engineering
- Food safety and quality - microbiological and chemical
- Sensory, habits, consumer behaviour/practice and preference
- Nutrition and Dietetics
- Nutraceuticals and functional food
- Food service management
- Food trends, innovation and business
- Post-harvest and agribusiness
- Food security
- Food packaging

Studies should be of general interest to the international community of food researchers.

Food Research also publishes special issues of selected peer-reviewed papers from conferences, proceedings, seminars, meetings, etc. related to the aim and scope of the journal.

Abstract

The yellowfin fish and terubuk were still rarely used in Papua. This study aimed to determine the physicochemical properties of complementary feeding biscuit formulated with yellowfin fish flour and terubuk flour to improve the nutritional status of children in Papua. A completely randomized single factor-experimental study by using three formulations of yellowfin fish flour and terubuk flour, F1 (1:3), F2 (1:1), and F3 (3:1) was conducted. The carbohydrate content was analyzed with by the difference method, fat by Soxhlet method, protein by Kjeldahl method, fiber by gravimetry method, iron and phosphorus by spectrophotometry method. The physical properties in terms of density, reconstitution and texture were conducted. Sensory evaluation was conducted to determine the acceptance of complementary feeding biscuits. Data were analyzed using the One-Way ANOVA test, Kruskal-Wallis test, Tukey test and Mann-Whitney test. Complementary feeding biscuits F1, F2 and F3 contained energy (435.58; 426.85; 436.71 kcal), protein (13.86; 15.75; 17.33 g), carbohydrate (23.19; 24.79; 20.45 g), fat (20.58; 20.40; 20.62 g), fiber (26.22; 20.63; 25.25 g), iron (3.76; 4.03; 3.68 mg), and phosphorus (267.70; 266.36; 275.79 mg). Complementary feeding biscuits had the following physical properties: density (0.64; 0.68; 0.70 g/mL), reconstitute test (20; 20; 25 mL) and texture test (468.78; 299.55; 408.05 gf). The complementary feeding biscuit was accepted by the panelists. The recommended serving size of complementary feeding biscuit with yellowfin fish flour and terubuk flour was 45 g or four pieces of biscuit needed to fulfill the required 30% of children's protein per day. © 2020 The Authors. Dear Afifah,

This message is to acknowledge the receipt of the above manuscript that you successfully checked-in. Please refer to the assigned manuscript ID number in any the editor.

Your paper will be reviewed by three or more reviewers assigned by the Food Research. You will be informed by email in due course. Reviewers' suggestions and editor's comments will be provided during the review process for your paper by emailing us on the "Status of my manuscript".

If your manuscript is accepted for publication, Food Research editorial office will contact you.

Thank you very much for submitting your manuscript to Food Research.

Dear Afifah,

Manuscript FR-ICTMHS-S08 entitled " Formulation of Biscuits with Yellowfin Fish Flour (*Thunnus Albacares*) and *Terubuk* Flour (*Saccharum edule Hasskarl*) as Complementary Feeding to Improve Children Nutritional Status in Papua " which you submitted to Food Research, has been reviewed. The comments of the reviewer(s) are included in the attached file.

The reviewer(s) have recommended publication, but also suggest some revisions to your manuscript. Therefore, I invite you to respond to the reviewer(s)' comments and revise your manuscript. Once the revised manuscript is prepared, please send it back to me for further processing.

Because we are trying to facilitate timely publication of manuscripts submitted to Food Research, your revised manuscript should be submitted before or by 1st March 2020. If it is not possible for you to submit your revision by this date, please let us know.

Once again, thank you for submitting your manuscript to Food Research and I look forward to receiving your revised manuscript.

Sincerely,
Professor Dr. Son Radu
foodresearch.my@outlook.com

Chief Editor, Food Research

Dear Dr Diana,

Manuscript ID: FR-ICTMHS-S08

Manuscript Title: Formulation of biscuits with yellowfin fish flour (Thunnus Albacares) and terubuk flour (Saccharum edule Hasskarl) as complementary feeding to improve children nutritional status in Papua

Before we can proceed with the article production, I would like to clarify a few points that I have commented in the manuscript. Please refer to the attachment. Please address the issues raised in the comments.

I recommend that your manuscript to undergo proofreading services as there are many incomplete tenses which depreciate the brevity of the manuscript. You may also request a friend who is a native English speaker to check the manuscript. If the returned manuscript has minimal to no improvement of the English language, the editorial team will edit the manuscript and charges will apply.

Please use the attached copy to make your revisions as it has been corrected to the Journal's format. Once you have done, kindly revert the copy to me as soon as possible. Please note the faster you respond, the quicker we will process your manuscript.

Thanks & Regards,

Dear Dr Diana,

Please refer to the attachment for the galley proof of your manuscript FR-ICTMHS-S08 entitled 'Formulation of Biscuits with Yellowfin Fish Flour (*Thunnus albacares*) and Terubuk Flour (*Saccharum edule* Hasskarl) as Complementary Feeding to Improve Children Nutritional Status in Papua'. Please check the content of the galley proof. If there are any mistakes, please comment and highlight in the PDF itself and revert to us within two (2) days of receipt. Once we have finalized the PDF version, your manuscript will be published online for early viewing.

Please see the attachment for the invoice INV20067. We hope that you can make the payment as soon as possible before 20 April 2020 for us to complete the publication of your manuscript. The manuscript information e.g. volume, issue, page numbers and DOI, will be provided once we have received the payment.

Thanks & Regards,
Vivian New

Dear Dr Diana,

Manuscript ID: FR-ICTMHS-S08

Manuscript Title: Formulation of biscuits with yellowfin fish flour (*Thunnus Albacares*) and terubuk flour (*Saccharum edule Hasskarl*) as complementary feeding to improve children nutritional status in Papua

Before we can proceed with the article production, I would like to clarify a few points that I have commented in the manuscript. Please refer to the attachment. Please address the issues raised in the comments.

I recommend that your manuscript to undergo proofreading services as there are many incomplete tenses which depreciate the brevity of the manuscript. You may also request a friend who is a native English speaker to check the manuscript. If the returned manuscript has minimal to no improvement of the English language, the editorial team will edit the manuscript and charges will apply.

Please use the attached copy to make your revisions as it has been corrected to the Journal's format. Once you have done, kindly revert the copy to me as soon as possible. Please note the faster you respond, the quicker we will process your manuscript.

Thanks & Regards,
Vivian New

Dear Afifah,

Manuscript FR-ICTMHS-S08 entitled " Formulation of Biscuits with Yellowfin Fish Flour (*Thunnus Albacares*) and Terubuk Flour (*Saccharum edule Hasskarl*) as Complementary Feeding to Improve Children Nutritional Status in Papua " which you submitted to Food Research, has been reviewed. The comments of the reviewer(s) are included in the attached file.

The reviewer(s) have recommended publication, but also suggest some revisions to your manuscript. Therefore, I invite you to respond to the reviewer(s)' comments and revise your manuscript. Once the revised manuscript is prepared, please send it back to me for further processing.

Because we are trying to facilitate timely publication of manuscripts submitted to Food

Research, your revised manuscript should be submitted before or by 1st March 2020. If it is not possible for you to submit your revision by this date, please let us know.

Once again, thank you for submitting your manuscript to Food Research and I look forward to receiving your revised manuscript.

Sincerely,
Professor Dr. Son Radu
