[PDF] Investigating Plagiarism: The Form and the Motivation in Performing Plagiarism in High Education

S Sariffuddin, KD Astuti, R Arthur - Journal of Education and ... , 2017 - researchgate.net

The rapid development of information technology, especially the Internet is pointed out to be factor driving the student to practice plagiarism. Prevention efforts continue to be made both from government policies and stakeholder by creating software anti-plagiarism. However, in the reality the practice of plagiarism remains common and relatively more widespread. This practice continues to be varied, so that we need to up-date the information and findings through investigations plagiarism practices in student assignments. The method used was a ...
