Dear JEMT,

On this occasion, I would like to ask about the status of ASERS publisher. I found that ASERS publisher is listed in the predator category, is that correct? could you please give me an explanation about that and when this ASERS is listed as one of the predators? What about your updated status now? I need your explanation because I have to give some answers to my university regarding this matter.

Thank you very much for your cooperation, and I am looking forward to your further information.
