[PDF] Community Capacity Building through an Alternative Approach Based on Participation in Handling Dengue Hemorrhagic Fever (DHF) in Semarang [PDF] semanticscholar.org

[IP Pratama, W Handayani...](#) - Journal of Regional ..., 2017 - pdfs.semanticscholar.org

Indonesia became the country with the highest number dengue cases in Asia, with as many as 80.065 cases, according to data by the United Nations in 2010. Dengue fever has killed hundreds, posing a threat to society against vector-based diseases, especially to those who are vulnerable to the impacts of climate change. The vulnerability of society will depend on their adaptive capacity in preventing or responding to an increased risk of disease transmission. In the efforts to increase resistance to the dengue risk, it will be difficult when ...
