Dear authors, I am sending you the opinion of the second reviewer. Please correct your article and send your corrected version to me. I will consequently accept it for publication and put it to copyediting process:

Second reviewer opinion:

For author and editor
Dear Authors,

Herewith, I enclose the review good manuscripts including the comments. In my opinion, this is a good manuscript to be published as result as Patin is a new novelty for solving malnutrition cases in Indonesia. Perhaps, Indonesian ministry of Health will considere about the study and promote the underfive to consume the Patin.

The manuscript will be better if the authors put the comparion about Patin protein and other fish. Then explaine the protein compound before and after food processing.

Thank you...
