Judul karya ilmiah (artikel) : The Dimension Of Rural-Urban Linkage of Food Security Assessment: An Indonesian Case Study

Jumlah Penulis : 4 penulis

Status Pengusul : **Rukuh Setiadi**, Artiningsih Artiningsih, Mada Sophianigum dan Tegar Satrian (Penulis ke-1)

Identitas Jurnal Ilmiah :

- a. Nama Jurnal : Asian Geographer
- b. Nomor ISSN : 1022-5706 (print)
- c. Vol.,no.,bulan,tahun : 2020
- d. Penerbit : Routledge
- e. DOI artikel (jika ada) : 10.1080/08111146.2017.1377607
- f. Alamat web jurnal : <https://www.tandfonline.com/doi/full/10.1080/10225706.2020.1768570>
- g. Terindeks di SJR 0,4 (2019) dan IPP 1,4 (2019)

Kategori Publikasi Jurnal Ilmiah (beri ✓ pada kategori yang tepat) :

- ☒ Jurnal Ilmiah Internasional /internasional bereputasi
- ☐ Jurnal Ilmiah Nasional Terakreditasi
- ☐ Jurnal Ilmiah Nasional /Nasional di DOAJ,CABI, COPERNICUS

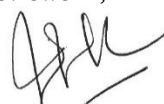

Hasil Penilaian *Peer Review* :

Komponen Yang Dinilai	Nilai Maksimal Jurnal Ilmiah			Nilai Akhir Yang Diperoleh
	Internasional/ internasional bereputasi 40	Nasional Terakreditasi 	Nasional 	
a. Kelengkapan unsur isi artikel (10%)	4			4
b. Ruang lingkup dan kedalaman pembahasan (30%)	12			11
c. Kecukupan dan kemutakhiran data/informasi dan metodologi (30%)	12			11,5
d. Kelengkapan unsur dan kualitas terbitan/jurnal (30%)	12			11
Total = (100%)	40			37,5
Nilai Pengusul : 60% x 37,5 = 22,5				

Catatan Penilaian artikel oleh Reviewer :

- a. Unsur isi artikel lengkap sesuai dengan petunjuk penulisan yang disediakan yang terdiri dari; *title, authors-affiliations, abstract-keywords, introduction, literature review, research methods, results, discussion, conclusion, acknowledgement, dan references*. Komponen artikel dibahas sesuai dengan judul yaitu mengenai keterkaitan desa-kota dalam konteks ketahanan pangan.
- b. Ruang lingkup artikel sesuai dengan jurnal yang dituju. Kedalaman pembahasan cukup memadai dengan mempertimbangkan indikator Food Security and Vulnerability Atlas (FSVA) pada daerah urban dan rural Kota Semarang. Artikel didukung oleh 40 pustaka dan 33 diantaranya bersumber dari artikel jurnal (pustaka primer), sebagian besar keluaran kurang dari 10 tahun terakhir. Artikel jurnal sesuai dengan bidang penulis terutama dalam konteks perencanaan wilayah dan pengelolaan lingkungan. Artikel memiliki similarity index sebesar 7%.
- c. Data dan informasi yang merupakan data sekunder sangat mutakhir, namun tahapan/metode analisis tidak dijelaskan dengan detail.
- d. Asian Geographer sebagai jurnal internasional terindeks Acopus Q2 SJR 0,4 sangat ketat dengan kontribusi keilmuan yang disumbangkan dan kualitas isi, sebagaimana telah ditunjukkan oleh artikel diatas. ISSN dan tautan DOI tersedia, dan didukung editorial board yang relevan dan cukup beragam.

The dimension of rural-urban linkage of food security assessment: an Indonesian case study

 Article in press 

Setiadi, R.,  Artiningsih, A., Sophianigrum, M., Satriani, T. 
Department of Urban and Regional Planning, Diponegoro University, Semarang, Indonesia

Abstract

View references (40)

This study puts emphasis on a literature review of current theoretical strands in two major fields: food security and rural-urban linkage. It then critically evaluates the relation between these two. It examines the extent to which the preparation of the Food Security Vulnerability Atlas developed by the World Food Programme considers the rural-urban linkage dimension. The linkage and differences between rural and urban characteristics that significantly affect the pillars of food security are explored based on empirical data obtained from two local governments in Central Java Province, Indonesia. This study shows that the dimension of rural-urban linkage has been included in the Food Security Vulnerability Atlas preparation guideline in Indonesia, although the notion of rural-urban linkage is not explicitly mentioned in the guideline. However, translation of such guideline at the municipality and regency government levels is problematic due to a lack of data readiness. Meanwhile, attempts to modify food security indicators to adapt to data availability are somehow not compatible with the notion of rural-urban linkage. © 2020, © 2020 Hong Kong Geographical Association.

Scope Asian Geographer disseminates knowledge about geographical problems and issues focusing on Asia and the Pacific Rim. Papers dealing with other regions should have a linkage to Asia and the Pacific Rim. Original and timely articles dealing with any field of physical or human geographical inquiries and methodologies will be considered for publication. We welcome, for example, submissions on people-environment interactions, urban and regional development, transport and large infrastructure, migration, natural disasters and their management, environment and energy issues. While the focus of the journal is placed on original research articles, review papers as well as viewpoints and research notes under the category of "Asian Geography in Brief" are also considered. Review papers should critically and constructively analyse the current state of understanding on geographical and planning topics in Asia. The 'Asian Geography in Brief' section welcomes submissions of applied geographical and planning research about Asia. The section aims to showcase (1) the diverse geography and planning of Asia; and (2) the diverse geographical and planning research about Asia. The journal will also publish special issues on particular themes or areas. Book reviews can be included from time to time.

ABSTRACT

This paper deconstructs Japanese media discourses of Japan's territorial disputes in selected newspapers in English – namely *The Asahi Shimbun*, *The Japan News* and *The Japan Times* from 2002 to 2018. Embedded in critical geopolitics, content and discourse analyses were conducted with the lexicostatistical tool AntConc, using articles available in the LexisNexis and Kikozu II Visual databases. The outcomes illustrate that nationalist geopolitical imaginations are popular among all researched newspapers as demonstrated by a strong dominance of solely Japanese toponyms in the discourses as well as a focus on supporting Japan's obstinate approach rather than promoting solutions.

ABSTRACT

This study examines how efforts to establish stable human relationships centered on therapeutic spaces helped a local community cope or adjust after the MV *Sewol* shipwreck. In the wake of this disaster, various human relationships in the affected community were shattered. The Korean government and non-governmental organizations (NGOs) set up seven therapeutic spaces to help people restore these relationships. This paper focuses mainly on NGOs' therapeutic spaces, which share significant common characteristics. First, each therapeutic space encourages care recipients to divert their attention away from their sense of guilt regarding deaths resulting from the disaster and restore the individual's relationship with themselves through nonverbal activities. Second, the spaces try to recover individuals' relationships with others through therapeutic encounters and interventions that embody unconditional devotion, sincerity, and understanding for both direct and indirect victims of the shipwreck. Third, these spaces establish a therapeutic network, thereby sharing recipient information and coordinating the integration of each resident. Fourth, these shared spaces created and reinforced a moral framework of reciprocity, dedication, and humanity in the community, thereby enhancing social awareness and empathy. In other words, these spaces forged a healing culture that made Koreans more sensitive to social issues and helped people move in a positive direction.
