Dear Researcher,

Paper Title: Sustainable Development of Natural Tourism Area Based on Ecological-Humanism

After Pre-submission peer review, **The comments are as follows.**

1. It will be of great help if you could briefly state some points on the novel contribution of your research work. Based on your response, we shall include some statements to reflect the novelty aspect and significance of the study that will surely enhance the chances of the paper publication.
2. The Introduction currently accounts for 364 words only. In general, an Introduction section is of 800 words. We can add about 400 words to this section to improve its presentation.
3. The Methods section is too short at 113 words only and is missing details about the methodology employed in the study. The ideal word count of this section is 600 words. Kindly provide all the details of this section so that we can present this section within the required word limit.
4. What is the limitation of your study? Kindly provide if you have any.

Thank you for the review, we will revised it as soon as possible. If I may, when is the deadline to re-submit the revised manuscript? Please inform me so that we can prepare it soon

It I may reply the review, I would say that previously the IIARP requirement was only 5 pages, so we make it as short as we can. But if the review said that we have to make introduction until 800 words and method until 600 words, so I would say that probably the manuscript will be more than 5 pages. Is it allowed? Please inform me so that we can revise it as per the review. Thank you so much
