Ref.: Ms. No. TVSM-2020-0062

Effect of acidified turmeric, black pepper or its combination on growth performance and carcass traits of broiler chickens

International Journal of Veterinary Science and Medicine

Dear Sugiharto,

Reviewers have now commented on your paper. You will see that they are advising that you revise your manuscript. If you are prepared to undertake the work required, I would be pleased to review a revision.

For your guidance, reviewers' comments are appended below.

If you decide to revise the work, please submit a list of changes or a rebuttal against each point which is being raised when you submit the revised manuscript.

Your revision is due by Sep 10, 2020.

To submit a revision, go to <https://www.editorialmanager.com/tvsm/> and log in as an Author. You will see a menu item called 'Submission Needing Revision'. You will find your submission record there.

Yours sincerely

Khaled Abdel-Moein  
Managing Editor  
International Journal of Veterinary Science and Medicine

Comments from the Editors and Reviewers:

Reviewer #1: The manuscript is good and well-written. However, I have some comments for further improvements. I suggest the title should have meat quality.

L17. Please mention other treatments that had lower abdominal fat.

L18 and others please use broiler chickens instead of birds.

L27-30. This study did not include antibiotic treatment please delete.

L34 use broiler chickens instead of broiler..please specify throughout the manuscript.

L66 again add meat quality

L98 male or female? please specify

L106 is it continuous lighting program during the whole experimental period?

L108 did the authors analyze the diet, I mean chemical composition. The proximate chemical composition of the experimental diets should be provided.

L133 please specify the period

L170-171 did the authors analyze the antioxidant or phenolic content of herbs. If yes, Please provide them to be more clear for the reader.

Conclusion.

Please add much information

Table 1

The authors add 1% of the herbs to the basal diet..chemical composition of the diets after the addition of feed additives should be provided.

Reviewer #2: Line 1

In the title:

Please replace or it's combination by turmeric and/or pepper.

Line 77

As prepared previously. Please give a reference.

Line 98

What is the sex of broiler? Did you use mixed sex? Please clarify.

Line 100

The 1 % of the additives was added on top of the formulated rations or otherwise? Did you calculate the nutrients value of the additive in your formulations? Please clarify.

Line 109

Did you use the Lohmann guide to formulate your starter and finisher diets? Please clarify.

Line 115

Justify why did you use 2 males.

Line 118

Please change to: The internal organs were weighed and internal organs relative weight was calculated. Please give a reference.

Line 124

Please give the reference of the statistics software.

Line 222

Please change to: as reported by Al-kassie.

Line 229

Please change to: in the present study. Instead of in this present study.

Line 346

Remove the bold from the year.

Editor comment:

insert the ethical statement in the materials and methods section.

Comments from the Editors and Reviewers:

Reviewer #1:

I have only one comment. Crude fiber content of the analyzed diets are high than normal range, it seems there is a mistake in the chemical analysis of CF. Please double-check.

Editor comments:

1- Pay US\$250 directly to the Faculty of Veterinary Medicine, Cairo University via wire bank transfer using the following data:

Comments from the Editors and Reviewers:

Editor comments:

1- insert the updated abstract in the abstract field in the submission system during submission of the revised manuscript.

2- change all colored words to black.

3- you concluded that acidified turmeric improved feed conversion however, you stated that The FCR in TRMC did not differ from CONT (clarify)

4- line 83: avoid unnecessary capital letters in Potassium Hydrogen Phthalate

5- line 235: as reported by Al-Kassie et al. [34] and El Tazi et al. [35] did not observe any impact of black change to as reported by Al-Kassie et al. [34] and El Tazi et al. [35] who did not .....

6- In the key of table 2: 2ME or ME2 (revise)

The online platform for Taylor & Francis Group content

[Author Services](#) | [FAQ](#) | [Twitter](#) | [Facebook](#)

Dear Sugiharto Sugiharto,

Your Open Access article, [Effect of acidified turmeric and/or black pepper on growth performance and meat quality of broiler chickens](#), published in International Journal of Veterinary Science and Medicine, [Volume 8 Issue 1](#), is now available to access via tandfonline.com.

**Share your article now**

You'll hopefully want to share your article with friends or colleagues (and then check its downloads, citations and Altmetric data on [Authored Works](#), our dedicated center for all Taylor & Francis published authors). Publishing Open Access means your article can be read by anyone, anywhere, and we want to work with you to ensure it reaches as wide (and as appropriate) an audience as possible.

Author feedback tells us that something as simple as posting about your article's publication on social media is a highly effective way of highlighting your research. Find out more about how you can work with us to [promote your work](#).

**Not sure how to access your Authored Works?**

If you haven't yet registered, you can do so using [sgh\\_undip@yahoo.co.id](mailto:sgh_undip@yahoo.co.id) (this is the email you used whilst your manuscript was going through production).

Once you've completed the quick registration you'll be sent an email asking you to confirm. Click on the verification link and you can then login (using the above email address) whenever you want to by going to [Taylor & Francis Online](#). Once you have logged in, click on "[Your Account](#)" at the top of the page to see the latest updates on your article.

If you have any problems accessing your Taylor & Francis Online account please [contact us](#). Thank you for publishing Open Access with us.

Kind regards,

Stewart Gardiner  
Global Production Director, Journals  
Taylor & Francis Group
