Dear Professor Toma,

At this stage, we would like to encourage you to prepare a graphical abstract (GA) for your manuscript.

A GA is an image that appears alongside the text abstract in the Table of Contents. In addition to summarizing content, it should represent the topic of the article in an attention-grabbing way.

The GA should be a high-quality illustration or diagram in any of the following formats: PNG, JPEG, PDF, EPS, SVG, PSD or AI. Written text in a GA should be clear and easy to read, using one of the following fonts: Times, Arial, Courier, Helvetica, Ubuntu or Calibri.

The minimum required size for the GA is 560 × 1100 pixels (height × width). When submitting larger images, please make sure to keep to the same ratio.

Avoid large blank space in the GA. There should be a proper distance between the actual content of the picture and the margins.

The GA should not be totally same as a Figure in the manuscript.

You can also find information regarding GA at the following link :  
<https://www.mdpi.com/journal/agriculture/instructions#preparation>

Thank you for your cooperation.  
We look forward to hearing from you.

I also revised some, mainly the unit.  
I think it better to not use "." but use space, e.g. 10 gN m-2.  
Please check and revise them including the unit in figures.
