[JGGAG] Editor Decision

2023-07-24 02:40 AM

Jovian Dian Pratama, Ratri Wulandari Wulandari, Imas Wihdah Misshuari:

We have reached a decision regarding your submission to Journal of Games, Game Art, and Gamification, "Synergy Magic Chess Optimization for 3 Evolution with Binary Integer Programming (Case Study Magic Chess v.255.1)".

Our decision is to: Accepted with Minor Revision

Reviewer C:
Recommendation: Revisions Required

Paper ID:

9642

Paper Title:

Synergy Magic Chess Optimization for 3 Evolution with Binary Integer Programming (Case Study Magic Chess v.255.1)

Object of Evaluation

Title

1. Title represents the content

Yes

2. Title has never been mentioned in other journals

Yes

Comment:

Abstract

1. Provide research problem and objective

Yes

2. Provide applied research method

Yes

3. Provide the result of the research

No

4. Provide relevant keyword

Yes

Comment:

The abstract must contain a brief summary of what is the problem, what has been done, what did you do as the author, what are the results (quantified) and some future plans.

Introduction

1. Provide research problem

Yes

2. Provide writer's insight and plan to the problem-solving effort

Yes

3. Provide research objective

Yes

4. Provide theoretical studies to the problems examined

No

Comment:

1. The research question or objective must be stated clearly, what methodology or approach will be used in and its significance in the field.
2. What is QM for Windows v5 application. Binary UN. ?

Method

1. Describe method clearly

No

Comment:

Author must show the relevance of the method used in solving the problem, why is it used in the first place, are there other alternatives? This section needs more information linking it to the problem and how it is going to arrive at a solution.

Result and Discussion

1. Data presentation and explanation valid and reasonable

Yes

2. Tables and figures are useful in the explanation

Yes

3. Discussion/analysis is relevant to research results

Yes

Comment:

1. Regarding the lineups, why was the lineup in Table I not used? Or if it was so, it is not clearly shown.
2. This was mentioned several times for Tables II-VI:
As for value h_j, j=0,1,2,3,4it will change as the game progresses because bonus slot heroes, blessings, and additional synergy are probabilistic things, you can get it or not. - any RNG concepts for these?

Conclusion

1. Summary main finding

Yes

2. Research contribution

No

3. Research implication

No

4. Research limitation

No

5. Future works / Recommendations

No

Comment:

Update the conclusion to summarize the main findings and results and implications of the study.

References

1. Relevant reference

Yes

Comment:

1. Additional references (Journal articles, Conference papers, Dissertations or Thesis) required.
2. Paper needs to be proofread.
3. Follow IEEE citation

Contribution to science

Good

Recommendation

Accepted with Minor Revision

Overall Comments / Specific Comments to Author:

The research is very interesting, the reader was craving to learn and read more about it, however, it lacks content and fluidity in writing, suggest working on the comments and recommendations to improve its quality.
