Yoyok Yoyok Budi Pramono:

Thank you for submitting the manuscript, "Shelf-Life Determination of "Hiwan Tahu" Using Accelerated Shelf-Life Testing (ASLT) with Arrhenius Model" to International Journal on Advanced Science, Engineering and Information Technology. With the online Journal management system that we are using, you will be able to track its progress through the editorial process by logging in to the journal web site:

Manuscript URL:
<http://www.insightsociety.org/ijaseit/index.php/ijaseit/author/submission/19193>
Username: yoyok-budi-pramono

If you have any questions, please contact me. Thank you for considering this journal as a venue for your work.

Yoyok Yoyok Budi Pramono:

We have reached a decision regarding your submission to International Journal on Advanced Science, Engineering and Information Technology, "Shelf-Life Determination of "Hiwan Tahu" Using Accelerated Shelf-Life Testing (ASLT) with Arrhenius Model".

Our decision is to: Revision Required

The general comment from this manuscript is needed to follow the format IJASEIT template which can be downloaded on the website. The following comments should be revised accordingly :

1. References should use at least reference 80% in (2020-2023) from journal indexed by Scopus and all references must include with DOI.
2. Citation and Reference in Paper must using Mendeley with IEEE Style.

Please submit your revision (Template IJASEIT 2021) in 10 days. More than 10 days of paper will be rejected from the system. Re-upload your revision into journal system NOT via email.

Goodluck!

Editor

International Journal on Advanced Science, Engineering and Information Technology

Reviewer A:

This paper already has novelty and good contributions in accordance with existing research objectives. Abstract writing is correct and provides good information about the research objectives, the methods used and the research results. The writing is in accordance with the provisions, namely the maximum number of words is 250 words. The introduction is good with a clear background and has a strong gap in analysis. The introduction has also contained the latest research and good contributions in accordance with the objectives of the research being studied. The research method is clear and systematic, with systematic stages and has a good flow chart. The discussion is good and already has clear and complete arguments with arguments that refer to relevant and current journals. The making of figures and tables is in accordance with the template. The conclusions are good and clear, and are in accordance with the objectives. Reference is relevant and precise and in accordance with the main study of research.
