.Detailed Comments for the Author

This article investigates the relationship between monetary policy objectives and zakat collection in Indonesia, a novel and relevant topic. However, it requires substantial revisions to improve clarity, structure, and methodological rigor. **Title and Abstract:**

- **Title:** While informative, the title could be more engaging. Consider rephrasing to highlight the key finding, e.g., "The Nonlinear Impact of Inflation on Zakat Collection in Indonesia."
- **Abstract:**
 - **Clarity:** The abstract needs significant improvement in clarity and flow. Rephrase sentences to enhance readability and ensure a logical flow of ideas.
 - **Third Finding:** Elaborate on the effect of led al-Fitr on zakat collection, as it's a key finding mentioned in the abstract but not discussed in detail.
 - **Consistency:** Maintain consistent capitalization of "led al-Fitr" throughout the article.
