Dear Sir,

Please find comment below for revise and re-submit again:

1. Please make sure that research questions are stated clearly. IJG discourages publication of routine project type of work.
2. Figure 1, Flow chart is difficult to read. make it bigger font.
3. Please explain the segment of methodology as mentioned in Figure 1.
4. Readers are interested in the research part.
5. All the equation number should be written as Equation 1, etc.
6. Table 1, (m2) go for hectare.
7. Figure 2 Make it bigger, remove the box and make legend clear and readable.
8. Table 3 How their classes were defined.
9. All the figures needed to remove the box. make it bigger and readable.
10. Table 4, How there clarifications determined?
11. Table 5 removes celsius.
12. How did you decide on the potential drought?
13. Make it clear as it is the most interesting research part of this work?
14. How accuracy test was conducted for drought potential?
15. Conclusion fails to bring out the drought potential mapping or determination. This needs to be clearly brought out & concluded.

Please send the revised version back along with a statement sheet of correction made soon.

Best regards,

**Ms. Nitiporn Saardmaung**
